Alfred Buggé - Executive Vice-President, Mergers & Acquisitions (CNW Group/Group Mach Inc.)

Alfred will oversee MACH's non real estate strategic expansion in domestic and international markets. Alfred was previously a partner at Borden Ladner Gervais LLP and a partner at Blake, Cassels & Graydon LLP where his transactional practice focused on M&A, private equity and corporate finance.

He represented numerous Canadian and international clients, including leading private equity groups, investment banks, pension funds and other institutional investors. Alfred's extensive securities regulatory experience includes having been a staff attorney at the Office of Mergers & Acquisitions at the U.S. Securities & Exchange Commission and staff attorney at the Capital Markets Division of the Autorité des marchés financiers. He teaches at the Collège des administrateurs de sociétés and teaches M&A and Corporate Governance at the Faculty of Law of the Université de Montréal.

ABOUT MACH

MACH is a key player in the Québec commercial real estate sector and one of the leading office property owners in the province. MACH is recognized for its expertise in commercial, industrial, institutional and residential projects and in the harmonization of mixed-use built environments. MACH is positioned as a leader in all aspects of development, including acquisition, construction and property management.

With a total portfolio of over 30M sq. ft. of properties and 10M sq. ft. of land, including over 20 properties in development (including Quartier des lumières) in Montréal, Québec City and also in Ontario and Florida, MACH is the leading independent real estate owner and developer in Québec. Our portfolio of real estate assets consists of office, retail, hotels, industrial, land and multi-residential. MACH's portfolio includes landmark buildings such as CIBC Tower, Place Victoria Tower, the Maison Radio-Canada Building, the Sun Life Building, Imperial Tobacco's new head office in Montreal and the CGI / Le Soleil building, the Telus Building and Le Cartier Building in Québec City. MACH has also developed innovative projects including constructing Airbnb's new head office in Montreal for its luxury retreat division, such building to be coowned with Airbnb.
